

BOGUS ROGER,

THE TICHBORNE CLAIMANT,
CHARGED WITH FRAUD.Starving Indians in Arizona—A Project
to Reclaim the Arid Region—
Homeless in Nevada—Cleveland
Returns Home.

By Telegram to The Times.

New York, Nov. 9.—[By the Western Associated Press.] The examination in the case of Charles George Curtis, who claims to be Sir Roger Tichborne, upon a charge of being a bogus pension agent, was begun today before United States Commissioner Benettine in Brooklyn. James N. Ward, chief law clerk of the Pension Department at Washington, testified that he had made complaint and was present at the time of the arrest. A copy of the original discharge of Charles Curtis, which is on file in the Second Auditor's office at Washington was placed in evidence. It recites that Charles Curtis was a private of Company F, 108th New York Volunteer Infantry, and enlisted on May 17th, 1860, to serve three years or during the war. He was discharged from the service to date from June 17, 1863, by reason of the muster out of the detachment. Said Curtis was born in Canada, is 37 years of age, 5 feet 10 inches in height, light complexion, blue eyes, dark brown hair, and by occupation a clerk. The identification papers were made before Justice of Peace Charles J. Moore, March 12, 1885, at San Diego, Cal. The papers further show that Curtis was wounded in battle at Mexico (Orizaba), and subsequently that he failed to recognize either of the two men as the missing heir. The lawyer for the accused is confident of proving that his client is Charles Curtis.

STARVING INDIANS.

An Arizona Tribe to Receive Help
from Government.

WASHINGTON (D. C.), Nov. 9.—[By the Western Associated Press.] The Secretary of the Interior, having received from the War Department a telegram from Gen. Howard, saying that Gen. Miles reports that 700 Hopalong Indians, located on their reservation in northwestern Arizona, are now in a destitute condition in a barren country, and must be fed or starve, has requested the military authorities to issue two-thirds rations per day to those Indians, to the extent of \$3000, the whole of the appropriation made by Congress for this purpose. It is an event that that sum proves insufficient to sustain them through the winter months, or until they are able to provide for themselves; that the Interior Department is advised of the fact before the \$3000 is exhausted, when further provision will, if possible, be made for their subsistence. The government rations for the Indians is three pounds of beef and half a pound of flour per day.

RAILROAD EXTENSION.

The S. P. Reaches Tempe—An
Important Building.

SAN LUIS OBISPO, Nov. 9.—[By the Western Associated Press.] The Southern Pacific completes its route to Tempe, the temporary terminus formerly called Crocker, on October 30th. The graders have gone to Newhall and this point will be the terminus for about a year. The railroad company is actively engaged in building a fine-tall, round-homes and station buildings. Good hotel accommodations will be there this week. The Tempe Institute is already fixed upon and J. A. E. Saunders, Ph.D., from the East, is actively engaged to work. It will be of high grade equal to any in the State. The site overlooks the city and is a grand future. It is reported that \$100,000 is guaranteed for the institution. The town presents scene of great activity.

Cattle Disease Spreading.

INDIANAPOLIS, Nov. 9.—Gentlemen from Jasper and Clinton counties are in the city, with the view of securing active measures to prevent the spread of pleuropneumonia, which has developed to an alarming extent in the last few days. They say that in their vicinity more than a thousand cattle are afflicted with the malady, which is incurable and will result in spreading. Dr. Navin, the State Veterinarian, has already ordered a number killed, and these gentlemen think that the State should pay for the cost of the slaughter. An official opinion from the Attorney-General to that effect, but that official assumes a very different view of it.

To Make the Desert Blossom.

WASHINGTON, Nov. 9.—Dr. George Yeaman, botanical expert of the Department, who recently spent several weeks in the "arid region," in a report to the Commissioner of Agriculture, expressed the belief that a large portion of the area so designated may be made vastly more fertile by the cultivation of the soil, and the growth of grass and forage plants than grama and buffalo grass, upon which cattle now subsist. It is, however, he says, a matter to be decided upon experiment, and to this end he recommends the utilization of the Fort Wallace (N. M.) reservation as an experimental reservation.

Filling Strikers' Places.

CHICAGO, Nov. 9.—About three thousand men reported for work at the stock-yards this morning. Everything is quiet and no disturbance of any kind has been reported to-day. The soldiers started on their rounds at 5 o'clock and patrolled the entire district. Most of the men who came to the yards were brought in by trains. There were no assaults on any of them as far as known.

Killed on the Hill.

MOUNTAIN VIEW (Cal.), Nov. 9.—The 1-40 train from San Jose ran over and killed a man, name yet unknown, to-day. The body was horribly mangled and cut all to pieces. The accident occurred a quarter of a mile south of Lawrence's station. It is supposed that it was a case of suicide as it is stated that the man threw himself in front of the engine on the track.

The Messenger Locked Up.

ST. LOUIS, Nov. 9.—Frothingham, the messenger of Adams Express Company, which was robbed of \$1000 at New York, was indicted by the grand jury this afternoon. Jim Cummings and Richard Roe were also indicted. Frothingham was arrested and locked up.

Fatal Powder Explosion.

MONROVIA (N. J.), Nov. 9.—An explosion occurred at the Fertile Powder Works at Lake Hopalong shortly before 3 o'clock this afternoon. One man was killed and five others seriously injured.

They Got Home Safe.

WASHINGTON, Nov. 9.—President and Mrs. Cleveland and the Cabinet officers who accompanied them to Boston returned to Washington at 4 o'clock this afternoon.

MURDEROUS MEXICANS.

They Kill Two Americans—The Frontier
Aroused.

SAN ANTONIO (TEX.), Nov. 9.—[By the Western Associated Press.] Hewlett Griner, one of the most extensive ranchmen in Western Texas, was killed last night at Los Velos, Mex., just across the line from Mexico. Griner lived with his family at Uvalde, and had gone out into Mexico with employees to see about the condition of the stock on the ranch he owned there. Some Mexicans living adjoining his hacienda and the natives at that time threatened to kill him if he again appeared in the area. Yesterday the Americans were attacked by the Mexicans and a pitched battle ensued. Griner's body was riddled with bullets and one of his men was killed. E. P. McMahon, who was one of Griner's party, succeeded in killing one of the Mexicans. The surviving Americans made their escape to this side, under a volley of bullets from the Winchester of the Mexicans. The Americans along the border are terribly incensed, and declare they will have vengeance.

FOREIGN FACTS.

Defending French Schools—The Belgian
Rioters.

BRUSSELS, Nov. 9.—[By Cable.] One thousand students in black arrived here today, in a body, from Charleroi, to petition for an amnesty for the men convicted for a participation in the riots of last March. The women had arranged to walk in procession to the municipal hall, to the legislative chambers. The burgomaster, however, refused to permit this, but allowed the delegation to present their petition at the city hall. The men who were greeted at the railway station by a great crowd, who cheered them heartily.

FRENCH SEMINARIES DEFENDED.
The principal, English and
American clergymen here, and many
well-known French Protestant divines,
have signed a protest denying the truth
of statements alleged to have been published
in America, regarding the manner of
conducting French seminaries here. They
declare that the statements are libel, and
assert that their schools are as pure and as
heavy in tone as any in England or America,
and their own daughters are educated
in them.

Homeless in Nevada.

EUREKA (CAL.), Nov. 9.—The fact has just been learned, here that on the 3d inst., a miner named Patrick O'Brien was killed by John Reid, at Beville, Nye county. Reid, who is generally known as Scotty, recently arrived from Sonora and Arizona. O'Brien, having had trouble with a deputy looking for a shotgun, when Scotty, to avoid trouble, took the gun from him. O'Brien started for Sidney with a dirt knife, and when within a few paces Scotty fired the shotgun, taking effect in his breast. O'Brien then stabbed Scotty twice, once in the breast and once in the ribs. O'Brien died in a few minutes. Scotty is in a precarious condition. The coroner's jury brought in a verdict of justifiable homicide.

Big Figures.

WASHINGTON, Nov. 9.—The total collections of internal revenue from the time when the present system was organized, July 1, 1862, up to June 30, 1886, were \$4,483,290,455. The aggregate receipts from the internal revenue for the year ending June 30, 1886, were \$2,536,481,671, and leave a balance of \$681,808,984 if they had been applied to that purpose.

Sale of Lordillard's Estate.
NEW YORK, Nov. 9.—The sale of the estate of the late George L. Lordillard, at the real estate exchange, drew together large numbers of real estate men, capitalists and speculators. The bidding was spirited, the amount realized by the sale being \$648,700.

CURRENT NOTES.

Black-and-tan dogs have become fashionable in England, and are gaining prizes at the dog shows.
The Burr Oak Rustler (newspaper), conducted by a twelve-year-old boy, is one of the literary lights of Kansas.
The earthquake gave the islands on the Georgia coast a lift, and they are now perceptibly higher above the sea level.
A West Virginia swain has had to pay \$200 for deserting his betrothed after his guests had assembled to witness their marriage.
Tom Acresford is the name of a Key Wester who is a little more than two inches long and six and a half inches wide.
Two years ago the price of cocaine was \$500 an ounce, but now it can be bought for \$10. Demand has stimulated production.
Among the few buildings in Charleston which do not need repairing from earthquake damage are two houses built of wood and plastered on the outside.
New York people are trying to estimate the number of times that the "Marshall" was played in the parade at the Goddess of Liberty celebration.
Dynamite has had a use in poaching on an extensive scale in Scotland. Hundreds of salmon in the river at Aberdeen were found floating on the surface of the water, being killed by dynamite cartridges.
One of the industries of Vermont is the gathering of white pine cones and selling the seeds, which are sent to Germany, France and other parts of Europe. A bushel of dried and tanned pine cones is worth \$1.00 and the seed is sold for 50 cents.

An Indian at North Yakima, W. T.,
drank twenty glasses of soda water one day
recently, and the next day appeared and
drank thirty-three more, when the same
apothecary refused to let him continue. It
is estimated that the savage carried away
two and a half gallons of the seductive
liquid.

The Stay-at-Home.

(San Diego Union.)
One of the curious features of this election is the magnitude of what may be termed the stay-at-home vote. It will be many of the election returns blanks sent back to this office; we have the comment of the party officials: "Not more than half of the voters in this precinct polled." In five wards of this city the total stay-at-home vote, according to the ward poll list, is 307, or 50 per cent. of the total. It is estimated that not less than 600 voters failed to exercise the elective franchise on Tuesday last. It is interesting to speculate upon what the result would have been had these ballots been cast.

Sketchley's New Pets.

(San Diego Union.)
The manager, so long located at the foot of Fifth street, was removed yesterday and taken to Los Angeles, where it will become a part of Dr. Sketchley's collection of animals. The moving was done under the supervision of Dr. Sketchley himself, who is an experienced dealer in animals of all kinds, being the owner of a collection of twenty animals and the proprietor of the ostrich farm located near from Los Angeles. Dr. Sketchley has been making overtures for the purchase of the menagerie at Woodstock, England, in San Francisco, and says he may be successful in securing it. He also brought the first ostriches to California, some four years ago.

A LONDON SCARE.

NOISY SOCIALISTS IN THE BRITISH
METROPOLIS.Another Mexican Outrage on the
Frontier—Filling the Places
of the Chicago Strikers—The Adams
Express Messenger Indicted.

By Telegram to The Times.

LONDON, Nov. 9.—[By Cable.] To-day is Lord Mayor's Day. The city presents a remarkably unusual appearance. Scarcely any decorations are to be seen. The shutters of shops are down and barricaded. The jewelry establishments and banks are heavily barred. Battalions of police are moving to different points of the city. All these precautions are due to the threatened gathering of Socialists at Trafalgar square. The crowd is increasing to vast proportions. At noon the police cleared the square. Nothing happened during the procession. The police were constantly hooted by the crowd which surrounded the square, and had increased to an immense size. After the procession had passed the square the crowd was allowed to enter. The Socialists leaders address the groups. The police did not interfere. Resolutions asking the government to provide work for the unemployed, and to reduce to eight hours a day work, were carried amid loud cheering. The crowd then dispersed. A number of anti-Socialists attempted to hold a counter demonstration in Trafalgar square. They were attacked and roughly handled by their opponents and driven from the square.

Postmaster at Merced.
WASHINGTON, Nov. 9.—The President
yesterday appointed L. A. Manchester
postmaster at Merced.

OUR NEIGHBORS.

University Place.

UNIVERSITY PLACE, Nov. 9.—[Correspondence of The Times.] Rev. Mr. Cherrington commenced, last evening, revival services in University Church, under very favorable auspices. A deep interest is felt by the church, and the impression made by Gospel truth was such that about a dozen rose for prayers Sabbath evening.

This, we understand, is a concerted movement throughout Los Angeles district, the pastors having voted, at their last meeting at Compton, to commence on the first Sabbath of November.

Mr. Hunt, of wind-mill fame, is just getting around, having been laid by for several weeks with erysipelas. We notice, with great satisfaction, improvements being made around University Church. The trees have been beautifully trimmed, the grounds cleared of weeds, and simple hitching-posta erected. None need fear that they will not find room for all the horses they may send to convey them to the house of God.

Your correspondent for the last three days has been confined to his room, but hopes to be out in a day or so.

Olive.

THE MURDERED DR. ELAM.

OLIVE, Nov. 8.—[Correspondence of THE TIMES.] The Olive Literary Society held one of its regular meetings Saturday evening. As this was the first meeting since the murder of its president, Dr. Elam, by John J. Bodkin, on Monday, November 1st, the regular order of business was dispensed with. The society then passed resolutions of love and respect to the memory of its late president. J. J. Bodkin's name was ordered stricken from the membership roll, and a committee was appointed to see about employing additional legal talent to assist in prosecuting the assassin.

A mass meeting is called for Tuesday evening, November 9th, at which the committees will report progress. No one even tries to defend such a terrible crime. Dr. Elam was known throughout the Santa Ana valley as being a conscientious man, a loving brother to two orphan sisters, a kind friend and a peaceable, law-abiding citizen.

Do not his dying words prove this? They were: "Tell my destroyer that I forgive him." Who could do more for a man that took his life in cold blood?

Pasadena.

MISCELLANEOUS MENTION.

PASADENA, Nov. 9.—[Correspondence of THE TIMES.] The ladies of the Episcopal Church will give a musical concert at Williams's Hall on the evening of the 11th, which is to be made enjoyable in various ways. Refreshments of ice cream and cake are to be served.

On Thursday evening, the 25th, Thanksgiving night, an entertainment will be given at Williams's Hall by the ladies interested in the public library for the benefit of that institution. An apron sale, fan drill, sunflower chorus and promenade concert will be features of the affair.

The daughter of W. E. Cooley had her hand pretty badly crushed in a cider mill the other day, while playing about it with other children. It is feared she may lose one of the fingers of her right hand.

Whoever has been some absurd talk about removing the new M. E. Church from the lot it now occupies, but it is talk of the cheapest kind.

Graham, arrested here some time ago for grand larceny, has been sent to San Quentin for two years.

A couple of men in the employ of Elmore, the gas manufacturer, were before the Recorder to-day for fighting. They had a falling out over work, and had a lively set-to in the rear of the Grand Hotel.

The celebration of the opening of the Colorado-street Railway to-day was a fine success. Two carloads of invited guests took a trip over the road to Olive wood, where they partook of a capital banquet on Mrs. Dey's grounds. Appropriate and happy speeches were made by C. T. Hopkins (who occupied the chair), Col. Picher, Judge Magee and Mayor Hoffman.

Hou. A. L. Thomas, Secretary of Utah, arrived at South Pasadena on Sunday, with his family, and took quarters for the latter at Hermosa Vista, where they will remain for the winter.

What does the canal know more about base ball than the drummer? Because he is a hump higger. Take this with your dessert.—Boston Commercial Bulletin.

ANAHEIM OIL WELLS.

Active Prospect Work—Evidence of a
Great Commerce.

(Anaheim Gazette.)

Truck loads of black, sticky-looking casks filled with crude petroleum from the oil wells to the railroad station, and truck loads of well-pipe, machinery and empty casks from the depot bound to the wells, are frequent sights on our streets, and evidence of something going on with the wells just north of Anaheim. What that something is, and its importance, seems to be but slightly understood. The work has been conducted quietly but diligently, and with such success as to satisfy the projectors that they will strike it big. The McFarland-Stewart Oil Company is now drilling night and day one well owned by the Chandler Oil Mining Company. Their well is now down to the depth of 300 feet in fine oil-sand, and yielding light oil at a rate of 150 barrels a day. A heavy oil has been obtained for a considerable distance above. This well is one of four to be drilled by this company to the depth of 1500 feet. The Chandler and Maxwell company is sinking a well one-half mile east of the McFarland-Stewart well, which has reached a depth of 225 feet, with 11-inch casing to the bottom. Work has been temporarily suspended on this well, owing to a defective well, but will be resumed on Monday next, with everything on the ground for a deep well. The Puente wells are only three miles west in the same belt, and are producing 100 barrels of fine oil per day. A pipe line connects these wells with Puente station, seven miles distant, which delivers the oil on the cars by a daily train. The sixth well is now being put down. The gentlemen now engaged upon the Anaheim wells, having the necessary experience, financial ability and determination to succeed, will undoubtedly get what they are after. Oil is there, and they are determined to get it. The one of the attendant necessities of the enterprise, we are assured will be laid as soon as required, and any day may bring the expected flow of oil to the surface.

S. A. and L. A. R. R.
(Colton Semi-Weekly, Nov. 8.)

A number of men, scrapers and tenting outfits passed through here yesterday evening bound for Arlington, to be used on the extension of the Riverside, Santa Ana and Los Angeles Railroad. The outfit belonged to L. A. Grant, who has done so much work in grading line for the California Southern Railroad in the last two years.

Medical.

TWO FRIENDS MEET.

"Hello! Old fellow! What have you been doing to yourself? You look like a subject for the undertaker," exclaimed the man on the left, as he looked at the other.

"I have been taking mercury and potash mixtures until they have nearly ruined me," replied the other, looking downcast.

"And I said the other," he has been taking the same kind of medicine, which has built me up from the first day."

SWIFT'S SPECIFIC.

Nature's own remedy, made from roots gathered from the forests of Georgia. The medicine by which it is obtained is a half-breed from the Creek Indians, who inhabit a certain portion of Georgia, which has been handed down from father to son, and thus the formula has been handed down to our day. The only cure for the disease is a course of treatment until cured conducted by the Swift's Specific, 400 Geary St., San Francisco. The reason thousands cannot get cured is because they do not use the Swift's Specific. It is a cure for all diseases of the blood, and is the only one of its kind.

VEGETABLE BLOOD PURIFIER.

Cancer, Catarrh, Scrofula, Eczema.

Cancers, Rheumatism, Blood Taint.

Hereditary or Otherwise.

WITHOUT USE OF MERCURY OR POTASH.

IN LOS ANGELES ONE WEEK.

FREE.

DR. LIEBIG & CO., leading
specialists of San Francisco, have established
an office in Los Angeles, for two
weeks from October 10th, on
account of the epidemic of disease
we have concluded to remain
in the city, having, at all
times, a chance for a free con-
sultation.

We know over the entire Pacific coast
of the epidemic of disease, and the only
cure is a course of treatment until cured
conducted by the Swift's Specific, 400 Geary St.,
San Francisco. The reason thousands cannot
get cured is because they do not use the Swift's
Specific. It is a cure for all diseases of the
blood, and is the only one of its kind.

Call on or address DR. LIEBIG & CO., 400 Geary
St., San Francisco. Most powerful electric
light and heat apparatus.

To prove the wonderful power of the
SWIFT'S SPECIFIC, a bottle given free. Con-
sultation, advice and examination FREE and
private.

TO THE UNFORTUNATE.

DR. GIBSON'S Dispensary, No. 22 Kearney
street, San Francisco, has been selected for
the treatment of Sexual and Venereal Diseases,
such as Gonorrhea, Gleet, Stricture, Syphilis
in all its forms, Eczema, Scrofula, and all
its allied diseases. The Doctor has visited the
hospitals of Europe and obtained a great deal
of valuable experience in the treatment of
these diseases. He is now in the city, and is
able to impart to those in need of his services,
the best and most reliable treatment. DR.
GIBSON will make no charge for his services,
except a small fee for medicine. Persons cured
at home. Consultation, advice and examination
FREE and private. Address DR. J. F. GIBSON, box
107, San Francisco, Cal.

FREE PUBLIC HEALING.

DR. THURSDALL.

WILL GIVE FREE METAPHYSICAL HEAL-
INGS.

Every Sunday afternoon at 2 o'clock, in the
Grand Opera House, for the study of the
science of metaphysics, for the cure of all
diseases, and for the advancement of the
human race. DR. THURSDALL, and MRS. E. S. HILL,
teachers.

For particulars inquire at the office,
No. 12, 13 and 14,
Foster block, No. 29 South Main st.

STILL COUNTING.

THE SUPERVISORS CONTINUE PATIENTLY TO PEG AWAY.

Making an Official Count of the Vote of Los Angeles County—The Legislative Ticket up to the Present Time.

The Supervisors were busy again all day yesterday in making the official count of the county vote. They canvassed 28 precincts, including the 10 in the city, and have 12 more to canvass to-day. There were no important changes made. The Trustees will to-morrow print, in tabular form, the complete official vote of city and county for the Republican, Democratic, Prohibition, American, United Labor and O'Donnell tickets, State and county. The official count on the legislative ticket is given below, as far as it has gone.

Senators.
